CareSquares
SENSORY LEARNING SYSTEM

CLASSROOM & THERAPY INFORMATION SHEET

Learning Through Touch, Play & Story

CareSquares is a flexible, multi-sensory system that supports children's development through tactile exploration, movement, storytelling, and hands-on learning across classroom, therapeutic, and inclusive learning environments.

Sensory & Motor Development

- tactile exploration
- fine & gross motor skills
- visual engagement

Language, Learning & Play

- storytelling & vocabulary
- matching & sorting
- collaborative play

Flexible Classroom & Therapy Use

- IEP support
- floor, wall & table use
- adaptable across ages

Guided Activities & Support

CareSquares includes flexible digital and printable resources designed to support classroom centers, therapy sessions, small groups, and independent exploration.

RESOURCE	APPLICATION
Sensory Stories	Encourage communication, sequencing, and imaginative participation
Guided Activities	Support matching, movement, sorting, and collaborative learning
Printable Flashcards	Reinforce vocabulary, textures, shapes, and descriptive language
Adaptation Supports	Provide flexible ways to support varied developmental levels

Why Schools & Clinics Choose CareSquares

CareSquares is a reusable sensory learning system designed for classrooms, therapy programs, and inclusive learning environments. One system supports multiple departments, developmental levels, and educational goals.

- ✓ Supports OT, SLP, PT, special education, preschool, and sensory programs
- ✓ Adaptable for a wide range of developmental and support needs
- ✓ Minimal staff training required
- ✓ Durable, reusable materials
- ✓ No batteries, charging, software, or subscriptions
- ✓ Expandable through themed Discovery Sets

Ages 3–12+

Multiple Student Use

Low-Tech Learning

One System. Multiple Applications.

DEPARTMENT	EXAMPLES OF USE
OT	Tactile exploration, sensory discrimination, motor planning
SLP	Descriptive language, storytelling, sequencing, communication
PT	Goal-directed movement, reaching activities
Special Education	Matching, sorting, choice-making, inclusive participation
Preschool	Shapes, textures, vocabulary development, collaborative play
Sensory Spaces	Calming exploration, sensory breaks, independent engagement

Flexible Across Students & Goals

CareSquares can be adapted for:

- Individual instruction
- Small groups
- Classroom centers
- Therapy sessions
- Inclusive learning activities
- Independent exploration

Designed for repeated use across classrooms, therapy sessions, and changing educational goals.

Expandable Learning Platform

Begin with the Core Sensory & Shape Set and expand with themed Discovery Sets that reinforce classroom topics, language development, storytelling, and sensory engagement.

The same sensory mats become the foundation for ongoing learning experiences.

Supports Diverse Needs

- Sensory processing differences
- Communication challenges
- Motor limitations
- Visual impairments
- Developmental delays
- Diverse participation levels

Ready to Use

- No batteries or charging
- No software, Wi-Fi, or subscriptions
- Minimal staff training required
- Easy to implement across classrooms and therapy settings
